DETAILED ACTION

Response to Arguments

Applicant's arguments, see Pre-Appeal Brief Request For Review, filed 12/2/2005, with respect to claims 82,85,86,88,89 and 91-97 have been fully considered and are persuasive. The rejection of claims 82,85,86,88,89 and 91-97 has been withdrawn.

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance:

As per claims 82 and 96, the closest prior art of record Schull U. S. Patent 6,266,654, Koppelman U. S. Patent 6,662,164 and Kanter U.S. Patent 5,537,314 taken either individually or in combination with other prior art of record fails to teach or suggest the combination of a customer transferring a copy of a piece of digital content to another customer and receives payment from licensor when the second customer pays for the license to use the piece of digital content transferred from the first customer.

The specific allowable feature, which distinguishes the present invention over the prior art is the transfer of a piece of digital content between customers, along with the tracking of the number of successful transfers between customers (the second customer pays for the license to use) and rendering payment to the customer that transferred the piece of digital content .

Claims 85, 86, 88, 89, and 91-95 and claim 97 are dependent upon Claims 82 and 96 respectively and thus have all the limitations of Claims 82 and 96 respectively and are allowable for that reason.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
